

GERNERAL IMPORTANT REQUIREMENTS FOR ALL CORNERS ON THE VESSEL

- 1) Estimated date for assembling furniture: **TBA** (Information about the exact date will follow).
- 2) Application security passes for working on the vessel: see attached document, as special needs are required!
- 3) The height of back wall furniture has to be as indicated.
- 4) The back wall furniture has to be self supporting! HPL wall of the vessel only supports against tilting! Secure to structure to ensure stability.
- 5) All visible faces must be finished, including signage.
- 6) Allow min 10 mm tolerance between wall fixture and Heinemann frame.
- 7) The air gap at the main back wall must be kept open.
- 8) Canopy is not allowed.
- 9) Individual flooring is not allowed.
- 10) The height of the middle furniture has to max. 1,350 mm!
- 11) The space between all furniture incl. merchandise has to min. 915 mm!
- 12) Design submissions are to be fully dimensioned, noteted and to be accompanied by finishes schedule, specification and must include a scale plan and elevation.
- 13) Required power outlets (location, quantity and loading) are to be shown on design drawings.
- 14) Estimated brand fit out period: _____ to _____, TBA by Heinemann.
- 15) Final design submissions to be submitted prior to _____ in both PDF and DWG format.

FIRE SAFETY SPECIFICATIONS FOR SHOP FITTING ON THE VESSEL

- 1) In all shops on the vessel all shop fitting and construction materials need to be **IMO certified**.
- 2) All cabling has to be **halogen free**.
- 3) All certificates have to be in English language.
- 4) English certification must be indicated for all materials (at least valid 3 months after scheduled assembling).
- 5) All certificates, plans including material list and specifications of all materials have to be approved by Heinemann before start of production.
- 6) The shoplifter must bring along these documents by the date scheduled for installation.

If these things are not available or if the fire-safety and materials specifications are not complied with, the fittings cannot be installed. If the yard insists on modification or replacement in any case of non compliance, the expense is to be borne by the manufacturer.

Please send all designs including dimensions, certificates and material specifications for coordination of detail and approval to Heinemann:

Natali Gerhardt
N_Gerhardt@gebr-heinemann.de
and
Ariane Mauel
A_Mauel@gebr-heinemann.de
and a copy to
Giovanni Perez
G.Perez@extern.gebr-heinemann.de

Please send the plans as PDF and DWG files and if possible 3D model in: .ifc file (preferred), 3D.dwg file or .3ds file
